

B1 (b) applying an oxidizing composition to said keratin fibers, wherein said oxidizing composition comprises at least one enzyme chosen from 2-electron oxidoreductases, at least one donor for said at least one enzyme, and at least one aminosilicone in a support suitable for keratin fibers.

47. A method for treating keratin fibers to obtain a permanent reshaping of said keratin fibers according to claim 46, further comprising rinsing said compositions from the keratin fibers.--

**REMARKS**

Claims 1-25 have been canceled and claims 26-47 have been added. It is submitted that support for these new claims can be found in the original specification and claims. Care has been taken so that no new matter has been added. Applicants now await an action on the merits. If the Examiner believes a telephone conference would be helpful in advancing the prosecution of this application, the Examiner is respectfully urged to contact Applicants' undersigned representative at (202) 408-4454.
